

# SPLAT!

One of Rashied's favourite games is paintball. Use a calculator to complete the calculations.

$$224 + 19 - 162 = \boxed{\phantom{000}}$$

$$89 - 19 \times 4 + 16 = \boxed{\phantom{000}}$$

$$134 - (8 \times 9) - 59 = \boxed{\phantom{000}}$$

$$14 \times (145 - 58) = \boxed{\phantom{000}}$$

$$(260 - 126) \times 18 = \boxed{\phantom{000}}$$

## WORK OUT THESE PROBLEMS.

- 1 Write a number sentence for each problem.
- 2 Calculate the answer.

Rashied had R150.00 in his wallet. He went to play paintball and spent R34.00 on paintballs, R15.00 on hiring protection gear and R2.50 on sweets and hot chocolate. How much money did he have left?

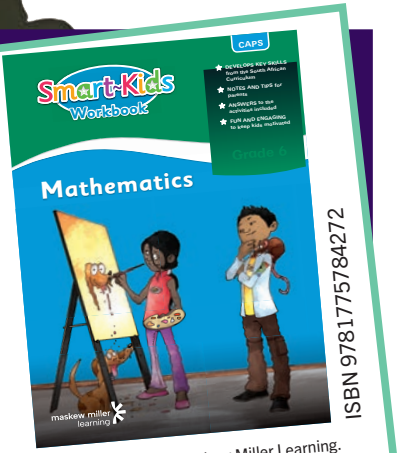

Number sentence .....

Answer:

Rashied's mom made a combat suit for each of his six team members. She bought 45 metres of fabric and used 5 metres of fabric for each suit. Was there any fabric left? If so, how much?

Number sentence .....

Answer:
